

**Job Description: Civil Engineering Intern**

**General Description:**

This position will work under the direct supervision of engineering staff and perform routine civil engineering support tasks. Responsibilities may include:

- Perform construction observation for transportation projects
- Assist with design, analysis, quantity take-offs and project documentation, plan preparation, report writing and research

**Minimum Requirements:**

- Currently enrolled and in pursuit of Bachelor's degree in Civil Engineering or related field
- Excellent verbal, written and interpersonal skills
- Must possess strong problem-solving skills
- Detail-oriented team player with an ability to contribute to a positive work environment
- Basic Microsoft Office skills
- Must possess a valid driver's license

**Preferred Requirements:**

- At least two semesters of higher education coursework related to civil engineering or other related course of study with a transportation emphasis
- Previous experience working as a civil engineering intern
- Previous experience with AutoCAD and Civil 3D software
